

## Deine Lakaien "Try"

Visit "[Try](#)" on MotoLyrics.com

Try, if I could try, if I could try  
Turn on my back, and watch the sky  
Try, if I could try, if I could try  
Let myself drift without goodbye  
Fly, if I could fly, if I could fly  
Turn on my back, and watch the sky  
Fly, if I could fly, if I could fly  
Let myself drift without goodbye

Try, if I could try, if I could try  
Wrapped up in warm air, time passing by  
Try, if I could try, if I could try  
Wrapped up in silence, words passing by  
Fly, if I could fly, if I could fly  
Wrapped up in warm air, time passing by  
Fly, if I could fly, if I could fly  
Wrapped up in silence, words passing by

Try, if I could try, if I could try  
Unplug these weights, don't ask me why

Try, if I could try, if I could try  
Unplug all questions and no reply  
Fly, if I could fly, if I could fly  
Unplug these weights, don't ask me why  
Fly, if I could fly, if I could fly  
Unplug all questions and no reply

Try, if I could try, if I could try  
Only in voidness you can rely  
Try, if I could try, if I could try  
Beyond the borders, can't hear you cry  
Fly, if I could fly, if I could fly  
Only in voidness you can rely  
Fly, if I could fly, if I could fly  
Beyond the borders, can't hear you cry
