I came close to fallin' a time or two before  
But somethin' always told me to wait for somethin'  
more  
Then you took me places my heart had never been  
You brought me to the edge of love and now I'm fallin'  
in  
I'm going down down down spinning round round  
round  
Falling deeper in love every day  
I've tried so hard to take it slow but I'm losing control  
This time I think I'm gonna fall all the way  
[ strings ]  
I could feel the magic from the very start  
There's no way to stop a feelin' when it's from the heart  
Now I'm all but helpless when you hold me close  
I'm not sure just where you're takin' me but I'm sure I  
want to go  
I'm going down down down...  
(Down down spinning round round round)  
I'm going down down down...
