"By The Way"

Visit "[By The Way](#)" on MotoLyrics.com

By the way, I really love you
Just in case you didn't know
And I know, baby, it's not easy
For you to say I'm the one
But I can tell by the way you love

By the way you smile
By the way you say nothin'
I can see it all in your eyes

By the way, I really need you
Everyday of my life
Don't worry, baby, if words escape you
I feel what you're feelin' and that's enough
I can tell by the way you love

By the way you smile
By the way you say nothin'
I can see it all in your eyes

By the way, I know it's not easy
For you to say I'm the one
But I can tell by the way you love me
I can tell I'm the one by the way you love
I can tell
