"Holding On"

Visit "[Holding On](#)" on MotoLyrics.com

Here we go, so hold my hand a little tighter
Don't let go, oh no, cause love can make our load much
lighter
All we need is just some time to light the fire again
So spend another night, and everything will be alright

CHORUS:

If we keep holding on
Got to keep holding on
Let's keep holding on
Holding on

It's not the end if we just stop and start all over
Like a child, we'll love and learn as we grow older
Soon there's gonna be a brand new face among the
crowd
And we can let you see what love has made for you and
me

CHORUS
