If your heart ain't busy tonight  
Maybe it would like to get with mine  
If your heart ain't busy tonight  
Well I could keep it occupied for a long long time  
If your lips ain't got something pressing to do  
If your arms aren't held up, well their invited too  
If your heart ain't busy tonight  
Maybe it would like to get with mine  
Anytime

Well it's kind of you to lend me an ear  
Well that's a start but I believe  
If I could only get the rest of you over here  
Then all of you might fall in love with all of me  
If your heart ain't busy tonight  
Maybe it would like to get with mine  
Anytime - Oh-yeah

If your feet are restless for somewhere to go  
And your eyes want something more to see  
Why don't you let them lead the rest of you to my door  
So all of you can fall in love with all of me

If your heart ain't busy tonight  
Well maybe it would like to get with mine  
If your heart ain't busy tonight  
Well I could keep it occupied for a long long time  
Yes I could

If your lips ain't got something pressing to do  
If your arms aren't held up, well they're invited too  
If your heart ain't busy tonight  
Maybe it would like to get with mine  
If your heart ain't busy tonight  
Maybe it would like to get with mine  
Anytime Uh-Uh
