It opens up with the same old scene  
You pushing me on that tire swing  
Up so high I could almost touch the sky  
The picture fades to you and me  
Caught stealing a kiss behind the tree  
It's so real it's like you never said goodbye  
Every night I turn the lights down low  
And take out that old video  
I hold your pillow close in the TV's glow  
And let the good times roll

The road moves on and it always will  
But I can make time stand still  
I can turn it back and make things just the same  
And though you're gone, you're still here,  
You're far away but always near  
I can see your face and hear you call my name  
Freeze frame

Every night I turn the lights down low  
And take out that old video  
I hold your pillow close in the TV's glow  
And let the good times roll  
When it comes to an end I can play it all again  
You went away but the good old days are here to stay

Every night I turn the lights down low  
And take out that old video  
I hold your pillow close in the TV's glow  
And let the good times roll

Now it's time to turn the lights down low  
And let the good times roll

Let 'em roll
