In your heart you know
You have a lot of things to show
I bet you to lean on the cross and on the barrel
You are cold, you are safe
I had no one, no one at all
Your face, oh your face
I have seen it in your heart

When you said what you mean
And I know what you said
I have nothing and no one at all
Now you move, check, hide me away
For the bad always comes in the fall
Oh the fall, oh the fall

You walk hard, you walk in
The whole breeze is out in the morning
In the morning we'll run to the bedroom, to the sea
You are cold and hot and wet and spots
I have metal for soul, I've met all your souls

Who call me out and flail me hard
I will meet you in your heart

When you said what you mean
And I know what you said
I have nothing and no one at all
Now you move, check, hide me away
For the bad always comes in the fall

When you said what you mean
And I know what you said
I have nothing and no one at all
Now you move, check, hide me away
For the bad always comes in the fall

Now you hand me your hand
Reaching behind, I want you to stay
All the while the cold, I hope you know
Cause the bad always comes in the fall
Oh the fall, oh the fall, oh the fall
