Nobody wants to book my band
But that's alright
I've still got a plan
I'll keep a finger up on both my hands
Point 'em right at you
When you give commands

Oh
My attitude should be censored or banned

Censor me! Censor me!
Ban me from the industry
I don't ever wanna be just like you
Censor me! Censor me!
Burn the music industry
'Cause I won't ever stand for
The things that you do

Censor me, baby!

All of the labels are looking for artists
Who sing about sex
And getting retarded
It makes lots of cash and it's easy to market
Especially to all of the morons they target

Oh
I might be rude, but at least I'm not bland

Censor me! Censor me!
Ban me from the industry
I don't ever wanna be just like you
Censor me! Censor me!
Burn the music industry
'Cause I won't ever stand for
The things that you do

And yes, that means you

All of the love in the world won't save
This broken music industry

'Cause all of the boys who run the show
Care more about paychecks
And making dough
Making dough

None of these jerks will return my calls
Or write me back
So to hell with them all
To hell with them all

Censor me! Censor me!
Ban me from the industry
I don't ever wanna be just like you
Censor me! Censor me!
Burn the music industry
'Cause I won't ever stand for
The things that you do

I'll never be you

Censor me, baby!
Yeah, go ahead, censor me now
Censor me! Censor me entirely!
You will not ever block me out
Can't censor me!
