Like a superman you're haunting the enemies again
Ready for the action now and then
If your heart's on fire, so my body thrills
That's the reason why your lovin' kills

* Oh oh oh, oh oh oh
Left right, left right here we go again
Oh oh oh, oh oh oh
Come on, boys, let's sing into the rain to say
2nd time
Come on, boys, let's strike we're like a hurricane

Everybody
We'll take you over the time
Everybody
Commando commando

Everybody
We'll fight the man of the moon
Everybody
Commando commando

With your big gunfire, nothing to pretend
Ready for the love my macho man
If you're going to fight don't tell me there's nothing to
fear
That's the reason why I want you near

* Repeat

Everybody
We'll show the power of love
Everybody
Commando commando

Everybody
We'll bring the air in your heart
Everybody
Commando commando
