With a bit of lose change in my pocket yeah,
My soul is stubborn, and nothing'll stop me.
Cos' I know where I'm going, I'll go at it alone,
I know where I'm going yeah, my mind's still strong.

So step in my way and I'll knock you down,
Like a thousand shit bricks I'll drag you to the ground.
I'm done with crumbling under my fears,
I'll make it my own way through blood, sweat and tears.
Cos' I...

Live for rock n roll,
And I'll die, before I sell my soul.
Yeah I, live for rock n roll,
Where freedom of expression and liberty ain't a
discretion.
And I...
Live for rock n roll,
And I'll die, before I sell my soul.
Yeah I, live for rock n roll,
Freedom of expression in a world with no repression.

You can't pay this piper to play your tune,
I'll say what I want so you can sit and endure.
And I've been told in hope that degenerates change,
Not in this case insane I'll remain.

Cos' I've been kicked when I'm down and I've been told
I'm nothing,
Well I'm back for you fuckers so don't tempt me I'll
crush 'em.
I'm sick of hypocrisy and fabricated acts,
Where love for music is sacrificed for cash.
And I...

Live for rock n roll,
And I'll die, before I sell my soul.
Yeah I, live for rock n roll,
Where freedom of expression and liberty ain't a
discretion.
And I...
Live for rock n roll,

And I'll die, before I sell my soul.
Yeah I, live for rock n roll,
Freedom of expression in a world with no repression.

Oi oi oi oi oi oi oi oi oi oi oi woaaaaahhh!

Take back this bottle of liquor,
Cos I found something that'll get to my heart a little
quicker. [x2]

It does something to me,
Moves right through me.
Head rush I can't forget,
Nothing I'll live to regret.
This rock n roll moves me,
Moves right through me.
It's my integrity,
It's what it takes to set me free.
Cos' I'll...

Live for rock n roll,
And I'll die, before I sell my soul.
Yeah I, live for rock n roll,
Freedom of expression in a world with no repression.
Live for rock n roll,
And I'll die, before I sell my soul.
Yeah I, live for rock n roll,
Screw your industry I won't let it go!
