I see what you see
I know what you know
I hear what you hear
I feel what you feel
Don't look through me like I am nothing
Don't look through me like I am nothing
I've got a wrench
I've got a screw
I've got a hammer
But the nail isn't you
Come with me we will build a housetree
We will see
We will tear down these streets
Tear down these streets
Tear down these streets
I'm spinning, I'm turning around [Ã—4]
I'm turning around, I'm turning around
I'm spinning, I'm turning around [Ã—2]
I see what you see
I know what you know
I hear what you hear
I feel what you feel
