You've got an arrow in your hand please don't shoot  
me down again  
You've got an arrow in your hand please don't shoot  
me down  
Because you love me and then you love me not  
Like a little girl watching red rose petals drop  
I'll dive into your puddle 'cause I don't even care  
Think what you've gotta think  
Stare if you've gotta stare  
I don't care  
Stare if you've gotta stare  
You've got an arrow in your hand please don't shoot  
me down again  
You've got an arrow in your hand please don't shoot  
me down  
Because you love me and then you love me not  
Like a little girl watching red rose petals drop  
I'll dive into your puddle 'cause I don't even care  
Think what you've gotta think  
Stare if you've gotta stare  
I don't care  
I don't care  
Stare if you're gonna stare  
You've got an arrow in your hand please don't shoot  
me down again  
You've got an arrow in your hand please don't shoot  
me down
