

## Tattle Tale "Little Silver Hands"

Visit "[Little Silver Hands](#)" on MotoLyrics.com

Little silver hands take what you can it's all you'll be  
sure of getting  
Little silver hands take what you can it's all you'll be  
sure of getting

You never thought you'd get her to come play in your  
own dirt  
Receive lots of life  
You've got so much inside  
You'll survive  
And your struggles won't go unnoticed  
Yeah, your struggles won't go unnoticed

Little silver hands  
Little silver hands  
If you get the opportunity remember what you need  
Lasting turmoil grows to unrecognized greed  
Greed stays in the soil  
What's in the soil is in the soul [x4]  
We know, yeah, we could know  
We know, yeah, we should know

The dark sins are found on your side of town, the poor  
side of town  
Little silver hands  
Push it down, throw it back  
And watch it wash down to the rich side of town  
Yeah, watch it wash down to the rich side of town  
And see how fast something happens then  
Yeah, we'll see how fast something changes then

What's in the soil is in the soul [x5]

It's all you'll be sure of getting  
Little silver hands take what you can it's all you'll be  
sure of knowing  
Little silver hands remember what you can it's all you'll  
be sure of knowing  
Little silver hands take what you can it's all you'll be  
sure of getting
