Wrap me up in pink paper please please please please  
You say I'm the girl of your dreams  
My nightmare, my nightmare  
Put me in a package with a bow  
I'm just another item for you to show

Kick it down  
Toss it on the ground  
Make a joke to turn it around  
Well think again  
'Cause I'm not laughing  
I'm not laughing [x3]

Here I go, oh no  
Into the trap again  
In a blur, caught in a whirl  
You taught me how to be the perfect girl  
I'll pull out  
I'll pull through  
I'll kill the girl you knew

I'll pull out, I'll pull through [x4]  
I'll pull out  
I'll kill, I'll kill the girl you knew  
The girl I knew  
The girl you knew

I'll pull out, I'll pull through [x15]  
You knew a girl I knew  
The girl you knew  
I'll pull out  
I'll pull through
