You say you want  
To be my friend  
And then you turn  
Your back on me  
What do you do  
When you wake up  
And find somebody  
Sleeping next to you?

So you hide  
You hide  
You hide  
You hide  
From the world

I will not lie  
Things were getting aged  
Around here  
That was why I pressed on  
4 several times  
I multiplied and subtracted  
All in all  
I turned out so wrong

So I hide  
I hide  
I hide  
I hide  
From the world

She was smarter than most of the  
Other people I had  
She could actually crack me  
Get my answers  
Get the multiples  
Make me clones  
She was scary  
She was like me

So we hide  
We hide

We hide  
We hide  
From the world

What used to be good is now bad  
Either way my life is sinking fast  
Ill die quick  
Thats all you want to know  
You can try to calculate me 6 times  
Still youre never gonna get your answer  
Im too coded all over  
Youll never find my digits  
Oblique with numbers  
No secrets to hide once uncovered  
Nothing to search once unveiled  
Just look inside my mind and  
Youll see what I see

So they hide  
They hide  
They hide  
They hide  
From the world

We'll take cover  
We'll run away, you and me  
We'll get away  
They're not gonna get us

We'll hide  
We'll hide  
We'll hide  
We'll hide

We'll hide and be safe
