It's all G, it's all G, it's all G
Ay ay ay ay it's all G
It's all G

Even though I'm wanted dead or alive
By the jackers and the robbers and paramour guys
I keep my head to the sky
Embrace the pain
I'm facing 25 but I can't complain
It's all G, I walked through the fire before
Hey I survived with the guys on the fire before
It's all G; let the haters conversate on me
Says he to easy to take the heat and put the weight on
me
It's all G

Let me tell ya how ya measure a man
When you fold under pressure when the fans come and
get ya
Can you hold it together till it's over that's special
When you have the same swagger when the world
laughing at ya
I'd like the animality girl I'd like to ask ya
Well ya'll keep cracking or will ya keep laughing
Be the same person even if it ain't worth it
I'll blow it all paper call I said the flow worth it
One thang you serve two thang you show it
I might be hurting but you won't even complain to know
I keep my head to the sky saying cry for the cowards
Keep your face dry brotha do it in the showers
Wipe it all with a towel no emotions
It's all G

Even though I'm wanted dead or alive
By the jackers and the robbers and paramour guys
I keep my head to the sky
Embrace the pain
I'm facing 25 but I can't complain
It's all G, I walked through the fire before
Hey I survived with the guys on the fire before
It's all G; let the haters conversate on me

Says he to easy to take the heat and put the weight on
me
It's all G

Remember first God put you to sing words
Jenovah gotta be a purpose don't think he ain't worth it
Sometimes he's only searching
Listen hear an ounce and learn that from an old person
He can show you things that you done take for granted
Then get back again better than you had it then
And reveal to you your real friends then
You reach a hand that took the babies hand in
Like the way the kids grew up scared before
It's all G, It's like I've never been scared before
A long time I should've been there you know
It's all G

Even though I'm wanted dead or alive
By the jackers and the robbers and paramour guys
I keep my head to the sky
Embrace the pain
I'm facing 25 but I can't complain
It's all G, I walked through the fire before
Hey I survived with the guys on the fire before
It's all G; let the haters conversate on me
Says he's to easy to take the heat and put the weight on
me
It's all G

I got wonder what got him so upset
Guess cus I'm the best that's what I get
Maybe cus when I talk more to see me suffer
Won't get him the ammunition ha...
No point to pretend I don't mean to be long with me
But I gotta ask this question ya'll before this songs
ended
Would you ever see you sweat and never see him fed?
You ready for whatever thinking never disrespect
How about the haters who they pensive as they say
I was a done dollar but I just come harder
I went through all that just to become smarter
And tomorrow I can see in the headlines
TI not guilty wave the fine to the bad guys
They kinda mad today to sell the scene
All hail the king
It's all G

Even though I'm wanted dead or alive
By the jackers and the robbers and paramour guys
I keep my head to the sky
Embrace the pain

I'm facing 25 but I can't complain hey
It's all G
