Get up get your backup against the wall
Let me see you shake it on the floor
We can hit it on the down low
I'll make you lose control

Get up get your backup against the wall
Let me see you freak across the floor
We can keep it on the down low
I'll make you lose control

You got me so excited
When I see you shake it on the floor
Keeps me coming back for more Oh yeah
And you know I just can't fight it
Girl you better step up and try this

Coz when you roll with me
A little music is all we need

It's just the way you move
Your sexy body baby makes me lose my cool (my
cool,my cool)

Girl you are so fine
Five nine
With the brown eyes
Glowing like the rays from the sunrise
All you gotta do for me

Get up get your backup against the wall
Let me see you shake it on the floor
We can hit it on the down low
I'll make you lose control

Get up get your backup against the wall
Let me see you freak across the floor
We can keep it on the down low
I'll make you lose control

So tonight I really wanna feel you grooving
Move our body close to me

I know it's where you wanna be
On me
Coz it sure feels good to me
When I hold you in my arms
Girl the night is still young

It's just the way you move
Your sexy body baby makes me lose my cool (my
cool, my cool)

Girl you are so fine
Five nine
With the brown eyes
Glowing like the rays from the sunrise
All you gotta do for me

When we're on the dance floor
Baby you can take control of me
Coz the grooves gotta hold of me
Don't let me go
Coz you're all that I've waited for (all that I've waited
for)
So don't let me go
Coz I've waited so long

Get up get your backup against the wall
Let me see you shake it on the floor
We can hit it on the down low
I'll make you lose control

Get up get your backup against the wall
Let me see you freak across the floor
We can keep it on the down low
I'll make you lose control

Damn right we can do it all night,
Shake it, shake it
Coz girl we can make it make it
If it's good for you then it's good for me
