You taught me to be wise
Showed me how to do things right
Never once you left me blind

Always write me oaths
Each time when I am down
Never thought about yourself

No one will ever be
The angel you are to me
Everything I have,
Points to you...

Chorus:
I'm the first on your mind,
Each and every time
What more can I ask
You've done your very best

I'm the first in all you do,
I'm complete because of you
There's so much that I must do
To live my dreams...
