(Jay Huzzle)

You're looking good Tawny
Do something good for me
In the back of the club
When you backin' it up
Yup, Yup
Now thats what's up

What's up Boy, see you looking here at me
You're looking tough boy, in your True Religion jeans
I say enough boy, now it's time to make a move
It's getting rough boy, for me to hide the truth

Boy you're just my type and I
know what I like
I've been watching you all night
and you got me hypnotized

Go
Go
To the back of the club so he don't catch on
Gotcha number but it ain't enough

Now quickly go
Go
To the place we can meet, gotta be discreet
Cuz no one has to know

(spoken)-
Over here in the back by the speakers
Feel 'em vibrate as we hide from the peekers

He has no clue I'm with you
and I just dont care
I want you.

I know that I came with him and I might even stay with
him
but for right now I wanna see
What's up with you and me.

Boy you're just my type and I

know what I like
I've been watching you all night
and you got me hypnotized

Go
Go
To the back of the club so he don't catch on
Gotcha number but it ain't enough

Now quickly go
Go
To the place we can meet, gotta be discreet
Cuz no one has to know

(repeat)

(Jay Hussle)-
She keeps trying to pull me closer in
I'm thinking how much dough am I suppose to spend
When you roll with a player you're suppose to win
With my ball in my court
I ain't coming up short
Shorts on them thighs
And I take 'em any size
My plans don't plan to be your man for life
I'm going home
Come along
You can spend the night

Go (I dont wanna wait)
Go (I wanna go)
To the back off the club so he dont catch on
Gotcha number but it ain't enough

Now quickly go (better hurry up)
Go (cuz their closing up shop)
To the place we can meet, gotta be discreet
Cuz no one has to know

Come on lets go

(repeat)
