No doubt, You're the One
Let me show you how a real lady gets it done
I can't deny it that your vibe feels right
And you've got my attention tonight, so-

Tell me boy, what's the deal with your status?
If you've got a girl then you know you can't have this
But if you're single, it's about to be on
And we can get our grind on to the song

Here we go-

I'm waiting, you've got my heart racing
I just want to get you closer to me
Just be free

Cuz I want you to-

Shake your body
You know I like it
The way you moving it, it is getting me excited
You don't have to worry about a thing
'Cept for being in the spot right her with me

Shake your body
You know I like it
I can tell that I'm getting you excited
Don't stop cuz I'm getting hot
And I want you all night here with me

So tell me what you wanna do next
Are you gonna make a move, cuz I don't expect less
Don't be shy, cuz now's not the time
And Baby you are so fine

I'm waiting, you've got my heart racing
I just want to get you closer to me
Just be free

Cuz I want you to-

Shake your body

You know I like it
The way you moving it, it is getting me excited
You don't have to worry about a thing
'Cept for being in the spot right her with me

Shake your body
You know I like it
I can tell that I'm getting you excited
Don't stop cuz I'm getting hot
And I want you all night here with me

I really like the way you shake your thing on the dance
floor
So let me see some more
And I can't get enough of you all the little things you do
Boy I'm really feeling you

Oh Papi, Papi
I said I really like your shake
And that sexy look that is on your face
I gotta think it through cuz I don't know what to do
Cuz I adore you

I'm waiting, you've got my heart racing
I just want to get you closer to me
Just be free

Cuz I want you to-

Shake your body
You know I like it
The way you moving it, it is getting me excited
You don't have to worry about a thing
'Cept for being in the spot right her with me

Shake your body
You know I like it
I can tell that I'm getting you excited
Don't stop cuz I'm getting hot
And I want you all night here with me
