Don't make me love you don't do that to me  
Don't make me love you cause all it would mean  
Is that your getting to me and that's something you  
should never do

Don't make me want you don't do that to me baby  
Don't make me want you cause all this would mean  
Is that your getting to me and that's something you  
should never do  
So please don't make me want you  
No no no and I'm begging you

Don't make me need you no cause all this would mean  
And I'm asking you don't make me want you no  
Cause all this would mean and I'm telling you  
Don't make me love you please oh don't make me love  
you
