So you're thinking that it's over  
Cause he said goodbye  
Left you with nothing  
But the tears in your eyes

You don't know how you're gonna get through this pain  
But the rain won't claim your days forever

Chorus

There is no heart that won't heal  
There is no tear that won't dry  
No matter how lost you feel  
Remember there is a light on the other side  
There is no night that won't end  
No sun that won't shine again  
There'll be an end to this hurt that you feel  
There is no heart that won't heal

Love can lift you to the heavens  
But it can let you down  
And the fall ain't always easy  
I know what you're feeling right now

But in time you won't find a trace of this pain  
You get rainbows from rain just remember

Chorus

There is no heart that won't heal  
There is no heart that won't heal  
There is no heart that won't heal

Hold on gotta be strong

Chorus
