I wasn't searching to end this hurting
But out of nowhere you made me feel
I cried about it, I lied about it
And tired to doubt this could be real

You've touched me far too much
I'm letting go of all the pain
I'm into you in every way

Send me a lover someone to believe in
Please send me someone that I can hold
Baby now
Send me a lover a new beginning
Someone to take away the cold

And give me back
What I've been missing
All the love that lays
And waits inside your heart

It still astounds me the way you found me
It's almost too good to be true
From our first meeting I had the feeling
The rest of my life I'd spend with you

Now I can't just turn my back
On everything I've heard you say
I'm into you in every way

Send me a lover someone to believe in
Please send me someone that I can hold
Baby now
Send me a lover a new beginning
Someone to take away the cold

And give me back
All that I've been missing
All the love that lays
And waits inside your heart

I thought that love was only a word
I'd never feel

All the passion I hold inside
Was simply just a dream, yeah

'Cause out of your heart you gave to me
I know it's real
And I've fallen so in love with you

Send me a lover someone to believe in
Please send me someone that I can hold
Send me a lover a new beginning
Someone to take away my cold

And give me back
All that I've been missing
All the love that lays
And waits inside your heart
