Where, where, where, where is he over there?
Where, where, where, where is he over there?

He's on the corner waiting
(Waiting)
Waiting for the right love to walk on by
He's on the look out he should
'Cause he's the one that they take their lovin' from

When he looks down deep
Into their eyes, their knees start
To shakin' but much to their surprise
He gone, he's gone, he's done it again

Where does the boy hang out?
(Hang out, hang out)
Their on the street dreamin' alot
(Hang out, hang out)
But dreams are trouble if they're caught
(Hang out, hang out)
Where does the boy hang out?
(Where does the boy hang out?)

They try to runaway prayin'
(Runaway, runaway)
Lookin' for the place where he won't be
He's on the make and they tempt him
(He's on the make, he's on the tempt)
'Cause he's the one they're gonna take their lovin' from

When he looks down deep
Into their eyes, their hearts start a beatin'
But much to their surprise
He's gone , he's done it again

Where does the boy hang out?
(Hang out, hang out)
Their on the street dreamin' alot
(Hang out, hang out)
But dreams are trouble if they're caught
(Hang out, hang out)
Where does the boy hang out?

(Where does the boy hang out?)

Why does he do it? Why must he do it?
Don't he know that he's a man just the same
Oh why he show it? Why don't he know it
That his words will always show 'em the way

The boy hangs out, the boy hangs out
You seen the boy hangs out
I said, ?The boy can't help it?

The boy hangs out, the boy hangs out
You seen the boy hangs out
I said, ?The boy can't help it?

I'm gonna find him and tell him
(Tell him)
That he don't have to prove anything to anyone
I'm gonna show him that he's alright
(I'm gonna show him)
And talkin' just as good as lovin' deep in the night

When he tells his story, so hard to resist
He's so slow talkin', no need to be kissed
He's smooth, he's done it again

Where does the boy hang out?
(Hang out, hang out)
Their on the street dreamin' a lot
(Hang out, hang out)
But dreams are trouble if they're caught
(Hang out, hang out)
Where does the boy hang out?
(Where does the boy hang out?)

Where does the boy hang out?
The boy hangs out, the boy hangs out
(He's standing on the corner)
You seen the boy hangs out
I said, ?The boy can't help it?

(And he's waiting)
The boy hangs out, the boy hangs out
(He's waiting)
You seen the boy hangs out
(He's so smooth)
I said, ?The boy can't help it?
(Hang on)

The boy hangs out, the boy hangs out
(He's standing on the corner)

You seen the boy hangs out
I said, ?The boy can't help it?

The boy hangs out, the boy hangs out
(Where does the boy hangs out?)
You seen the boy hangs out
I said, ?The boy can't help it?

The boy hangs out, the boy hangs out
You seen the boy hangs out
I said, ?The boy can't help it?

The boy hangs out, the boy hangs out
You seen the boy hangs out
I said, ?The boy can't help it?

The boy hangs out, the boy hangs out
You seen the boy hangs out
I said, ?The boy can't help it?

The boy hangs out, the boy hangs out
You seen the boy hangs out
I said, ?The boy can't help it?
