Yeah, He's in the buildin'
The Greatest Entertainer on earth, y'all ready

Jesus You're the star of the show
Eh yo, eh eh eh, eh eh eh
Yeah, eh, eh eh, eh yo
Jesus You're the star of the show

The arena is jammed, man
Packed with a sea of fans
Everybody wanna get a glimpse
They wanna see the man

I ain't talkin' 'bout the king of pop
I'm talkin' 'bout the King of Kings
He 'bout to show us somethin'
Something we ain't never seen

I'm in his Entourage, I ain't talkin' HBO
I'm talkin' real life, I follow everywhere He go
I'm taking megastar, yep, there's nobody hotter
His name is Jesus Christ, He's the show stopper

Ey oh, the crowd is gettin' out of control
Turn these lights up and let's go
On my intro give me something Pyro
Eh, eh, eh, eh

Ey oh, the speakers are 'bout to blow
Let's get this party started, let's go
I can hear the praise from way back stage
It's like a parade, you already know
Jesus is the star of the show

Jesus You're the star, Jesus You're the star
Jesus You're the star of the show
Jesus You're the star, Jesus You're the star
Jesus You're the star of the show

I just a roadie, man, I carry His word
I do His sound checks, make sure His voice is heard
I throw His name around, they put me in the VIP

And when I drive His car around, everybody wanna roll
with me

He's the greatest entertainer that ever hit the stage
I'm rehearsin' all His moves wanna be like Him one day
He's waitin' backstage, waitin' for the right time
When He's comes in the room, He's gonna blow your
mind

Ey oh, the crowd is gettin' out of control
Turn these lights up and let's go
On my intro give me something Pyro
Eh, eh, eh, eh

The speakers are 'bout to blow
Turns these lights up and let's go
I begin the prayers from way backstage
It's not a parade, you already know
Jesus is the star of the show

Let's set this atmosphere
Before He appears, oh yeah

Jesus You're the star, Jesus You're the star
Jesus You're the star of the show
Jesus You're the star, Jesus You're the star
Jesus You're the star of the show

Ey oh, the crowd is gettin' out of control
Turn this light up and let's go
On my intro give me something Pyro
Eh, eh, eh, eh

The speakers are 'bout to blow
Let's get this party started, let's go
I begin the prayers from way backstage
It's not a parade, you already know
Jesus is the star of the show
