## "Hell Of A Day"

Visit "[Hell Of A Day](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've been doin' lots of time  
Workin' on Love's assembly line  
And now it's kinda hard to make my way  
Love has made for a hell of a day

Hell of a day is what love has made  
They never said love was an easy trade  
Say, if you don't mind, I'll be on my way  
Well, Love has made for a hell of a day

So you can get on with your life, baby  
And I can get on with mine  
There ain't no time for heartbreak or sorrow  
You can't be too concerned over spilled wine

Hell of a day is what love has made  
They never said love was an easy trade  
And now it's kinda hard to make my way  
Love has made for a hell of a day

(4 measures instrumental)

I've been workin' with the heart's metallurgy  
And the nights have become cold  
In this world, a lonesome feelin'  
You can't turn silver into gold

Hell of a day, yeah, is what love has made  
They never said love was an easy trade  
And now it's kinda hard to make my way  
Love has made for a hell of a day

Hell of a day is what love has made  
They never said love was an easy trade  
Say, if you don't mind, I'll be on my way  
Well, Love has made for a hell of a day
