Taylor Swift - Don't Wanna Miss You Lyrics

I cried when you were gone, i knew that you had left me, i would walk away and you wouldn't catch me i tried so hard, to get your attention, but all you did was run away. Chorus: You make me miss you, I don't want that, you make me cry but that last thing is, i don't wanna miss you i don't wanna miss your face, i hate everything about you i don't wanna miss you, We used to walk around a big state called texas, we went to the place, where i first kissed you, you laughed and you smiled, i knew that you felt good, it still breaks my heart, when i go there, Chorus: You make me miss you, i don't want that, you make me cry but that last thing is, i don't wanna miss you, i don't wanna miss your face, i hate everything about you, i don't wanna miss you, i don't wanna miss you. Love is strong, we don't belong, don't follow me, i won't follow you, you hate me, i hate you, and all i really know is... Chorus: you used to make me miss you, i didn't want that, you would make me cry, but the very last things are, i don't wanna miss you, i don't wanna miss your face, i hate everything about you, i don't wanna miss you, i don't wanna miss you, i really don't wanna miss you!
