Your feet under the table  
I love it when they're touching mine  
Your hands make the best kind of cradle  
To tell me everything is fine  
All I see is you looking at me  
Do you know when you go  
You make the sweetest sight at the window  
If you had never come out of the blue  
I would have stayed up and Made Up You  
You smile just like a picture  
It doesn't even need a frame  
Sometimes I wait to answer  
Just to hear you say my name  
And all I want is just what i've got  
Do you know when you go  
You make the sweetest sight at the window  
If you had never come out of the blue  
I would have stayed up and Made Up You  
I'd never let you go  
Even If I could  
Cause I never could've dreamed you up this good  
Oh oh  
Do you know when you go  
You make the sweetest sight at the window  
If you had never come out of the blue  
I would have stayed up and Made Up You  
Made Up You  
Oh oh  
Made Up You
