I need you now  
Read letters that I wrote on the wall  
And the message that I left when I called  
I need you now  
Words I said drowned out by the rain  
Waiting there for you but you never came  
My world's a little colder now  
But I'm keeping warm somehow  
So here you are at my window  
Guess nobody told you  
I don't need don't need you  
And I waited so frustrated  
Who's gonna hold you  
I don't need you don't need you now  
I need you now  
Words I heard you whisper to me  
We were walking down a one-way street  
You need me now  
That's what you've been telling my friends  
That I've come too far to go back there again  
My heart my mind and number have changed  
You might as well forget my name  
So here you are at my window  
Guess nobody told you  
I don't need you don't need you  
And I waited so frustrated  
Who's gonna hold you  
I don't need you don't need you now  
I need you now  
Red letters that I wrote on the wall  
And the message that I left when I called  
So here you are at my window  
Guess nobody told you  
I don't need you don't need you

And I waited so frustrated  
So who's gonna hold you  
I don't need you now  
And I don't know where you are  
I don't wonder where you are  
I don't dream about you cause I don't need you now  
I don't dream about the way  
That I never heard you say  
"I need you I need you"  
I don't need you now  
Don't need you  
Don't need you now
