You were the guy I always dreamed of. You were the  
guy that I loved. But then you had to leave me.  
I asked when you would call me. You replied meet me  
at the wildernes at nine. I went there standin waitin  
to see your face.... You never showed up I was there for  
hours, I was watin to see your face. Ill stand here for  
hours under this lonely spot light.  
Ill wait all night till I see your face. Ohh waitin to see  
your face. I went to the mall with all my friends to see if  
you were there I saw you with another girl I didnt think  
to swear. I wen home crying to see if you were there If a  
message was left I would cry my tears.I was watin to  
see your face. Ill stand here for hours under this lonely  
spot light.  
Ill wait all night till I see your face. Ohh waitin to see  
your face. Then I had your call for me and I saw your  
face lookin at me I was glad to see! We went we cried  
to the the wilderness---Im not alone.. Under the spot  
light any more.... Any more--- any more--- ANY MORE!
