Beneath the chandelier of stars and atmosphere  
Tangled like the roots on the ground  
The windows opened up  
The wind is blowing and we're both not making a sound  
It's like I'm melting on into you  
Give me a reason why we should ever move  
and

Tell me  
You'll never leave me  
and I'm not crazy and  
This is really happening  
That this is really happening

Could this be better?  
You write me letters  
So you see me everyday  
You tend to treat me like  
My name is up in lights  
It really blows me away

Lock me up in a dark room  
And I still can't take my eyes off you

Tell me  
You'll never leave me  
and I'm not crazy and  
This is really happening  
That this is really happening

All those kisses up against your car  
For all those wishes on planes  
We thought were stars  
Memories like photographs  
Oh Baby, Here we are

Tell me  
You'll never leave me  
and I'm not crazy and  
Oh, This is really happening  
Oh, Oh, Baby

Tell me  
You'll always need me  
That I drive you crazy  
And this is really happening  
Oh, that this is really happening

Tell me, Oh  
You'll always need me  
(need me, tell me)  
(Baby)  
That I drive you crazy  
(Oh)  
That this is really happening
