Verse 1:

We hooked up, we sat down, made an agreement
Vowed that, that we'd always be together, to whatever,
we said that
No whatever, keep it between us, that we'd never ever
leave us
That was a while aaaaagooooo oh oh, and now lately, it
feels like
I mean I feel like, that all we do is fight, every single
night
Can't get it right, can't get it tight
I just want to go back, to the way back, all the way back
Can we start again?
Do it over, can we straighten it out? Can we work it out?
Yeeahh eh

Hook:

You tell me how much you love me
Next minute don't fuckin care
The situation is getting ugly
But to creep out on you, I wouldn't dare

Chorus:

Boy I know how much you really want my body
You know that I'm always trying to keep you
Boy I know how much you really need my body
You now that I'll never try to leave you
I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be aloooooone
That's why I got this drink in my cuuuup
That's why I got this drink in my cuuuuup, yeaaaah
yeah, yeah eh

Verse 2:

Do you realize that I can't sleep without you, think
without you
Think without you, speak without you, be without you
I can't even breath without you
Feel without you, feel without you, spin without you
My whole world is upside dooowwn
Don't wanna go out, can't fly without you
Feel like I'm gonna die without you
What's a girl suppose to do,

and I just wanna spend my time around you,
I just wanna give my all to you, I just wanna spend my
life with you
Boy you know my love is true, hate when we have these
arguments ooooo
Repeat Hook:
You tell me how much you love me
Next minute don't fuckin care
The situation is getting ugly
But to creep out on you, I wouldn't dare
Chorus:
Boy I know how much you really need my body
You know that I'm always trying to keep you
Boy I know how much you really want my body
You now I ain't never try to leave you
I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be aloooooone, yeeaaaahhh
Yeah
Fuck
That's why I got this drink in my cuuup
Why I got this drink in my cuuup
Pour that OJ, a little vodka, thats it
Ayyye
