It dont take no rocket science  
Just to see him coming  
The day he said excuse me miss  
I should have took of running  
From the moment that we kissed  
I knew I was his woman  
And I just could not resist  
He was sexy and charming

But my intuitions telling me this just aint right  
Got this funny feeling way in the back of my mind

Can't put my finger on it  
But I know I'm on to something  
I'm a figure it out out out  
I'm a figure it out out out yeah

If you got another woman no need to make  
assumptions  
Cos I'm a figure it out out out  
I'm a figure it out out yeah  
I'm a figure it out

I truly expect the worse  
So I'm not disappointed  
He showed me all the signs  
But I was so in love ignored it  
When I was asleep he hit the streets  
All hours of the morning  
Should have known someone like him was really up to  
something

But my intuitions telling me this just aint right  
Got this funny feeling way in the back of my mind

Can't put my finger on it  
But I know I'm on to something  
I'm a figure it out out out  
I'm a figure it out out out yeah

If you got another woman no need to make

assumptions  
Cos I'm a figure it out out out  
I'm a figure it out out yeah  
I'm a figure it out

Can't put my finger on it  
But I know I'm on to something  
I'm a figure it out out out  
I'm a figure it out out out yeah

If you got another woman no need to make  
assumptions  
Cos I'm a figure it out out out  
I'm a figure it out out yeah  
I'm a figure it out

Time reveals all things  
That in the dark come to the light  
Baby don't stop doing your thing  
Cause I'm doing mine tonight

Cos I figured you out  
I figured you out x4

Can't put my finger on it  
But I know I'm on to something  
I'm a figure it out out out  
I'm a figure it out out out yeah

If you got another woman no need to make  
assumptions  
Cos I'm a figure it out out out  
I'm a figure it out out yeah  
I'm a figure it out

Repeat to fade
