[Chorus]

People lil mama, come see the lil mama  
She give them what he need,  
He give her what she wanna  
Oh lil mama, come see the lil mama  
He telling bitches sleep, cause she my lil mama

She's a certified, head turner,  
Look at Shawty go, look at Shawty go  
He's a hot boy, block burner  
Keep it throwing dough, hunned thousands on the floor  
Now they got the whole club looking  
Her body like damn, and he the fucking man  
He loving the way she juking, juking  
Hey no Shawty don't be play  
So forget them other girls,  
You know who we playing first  
If you don't let me give a reminder  
Taking trips around the world,  
Then we do it in reverse  
I'm in love with a little timer

[Chorus]

People lil mama, come see the lil mama  
She give them what he need,  
He give her what she wanna  
Oh lil mama, come see the lil mama  
He telling bitches sleep, cause she my lil mama

And she ain't messing with no â€¦  
He only want them with them dots  
And she ain't looking for no hero  
Her daddy do it big time  
Lil mama ah, you know how to give him that service  
He be putting it down, he putting it down  
Make a toast, curl on purpose  
Like he be moving the ground  
She be making the sound  
Them haters can't say nothing  
Cause they can never feel how  
He making her feel nah

He give her that good loving  
And when she look around, she the only one around  
So forget them other girls,  
You know who we playing first  
If you don't let me give a reminder  
Taking trips around the world,  
Then we do it in reverse  
I'm in love with a little timer

[Chorus]

People lil mama, come see the lil mama  
She give them what he need,  
He give her what she wanna  
Oh lil mama, come see the lil mama  
He telling bitches sleep, cause she my lil mama

And she ain't messing with no â€¦  
He only want them with them dots  
And she ain't looking for no hero  
Her daddy do it big time  
Lil mama ah, can't help but stare  
You can tell, tell we the shit  
From way over there  
When he wraps his arms around me  
The spots, I swear I see fireworks  
I was made to give him love  
So forget them other girls,  
You know who we playing first  
If you don't let me give a reminder  
Taking trips around the world,  
Then we do it in reverse  
I'm in love with a little timer

[Chorus]

People lil mama, come see the lil mama  
She give them what he need,  
He give her what she wanna  
Oh lil mama, come see the lil mama  
He telling bitches sleep, cause she my lil mama.
