Whole lot of things to say but i can't seem to hold on
moved away it pulls me back
To what i miss like talking talking talking to the mad
queen about emotional evolution
Well i do what i do and i don't need you to tell me
what's in and tell me who's cool
I've got no money left and the mean world around me
and i don't need that girl to
Watch TV with she's just the same girl over and over
and over and you can go
Back to your boyfriend half of this is me and i'm not
sure who the other is she
Maybe came from all of you this house is warm i think
i'll take a nap just like
Freewheel, Freewheel!!!
