Tell me what's the difference
Between you and me?
So how can you expect me
To believe any word you say?
Any word you say

I've tried everything
I could to believe you
But every time I do you lie
You ripped my heart from my chest
Now there is nothing left
We're in this again and again
I know how this story will end
Now wipe the blood from my chest
You're so off my friends list
If ignorance is bliss
Then what is this?

One more time now
I believed a lie
One more time now
It's over
One more time now
I believed a lie
One more time now

So how can you expect me
To believe any word you say?
Any word you say
So how can you expect me
To believe any word you say?
Any word you say
When you lie with dogs
Expect to wake up with fleas
Liars don't just wake up
And decide not to lie anymore
Anymore
