The decay of light  
Brings us delight  
We come out at night  
Together we unite

Strong in our union  
Night sky invasion  
Nocturnal and pure  
The moon our only lure

Bat Horde Bat Horde

The forest is our home  
We want to be left alone

Bat Horde Bat Horde

We live for the dark and the cold  
In trees and caves we make our home  
Humans fear our bite  
Night after night... we return

Strong in our union  
Night sky invasion  
Bat Horde
