I have been massacred  
Used and thrown away  
Woman of ice, cold hearted bitch  
Emotionless sibyl destroyed me

A gaping hole in my chest  
Internal torture and loss  
Rejection kills me  
Used and massacred emotions

Such a waste of emotion  
I am cursed and afflicted  
Never open the heart to lesa  
Woman of ice destroyed me

I welcomed her in  
Like an infection she spread  
Then laid waste to me  
I have been massacred

Lies... Lies... All lies  
A facade that melts away  
My tears turn to blood  
She enjoys my pain  
Lies... Lies... All lies  
She enjoys my pain

[Solo]

Despondent and unmotivated  
Depressive aggression, retaliation  
A fevered agony of pain  
I have again been MASSACRED!  
I have been emotionally massacred!
