The choice was made  
Plans were laid  
To exit life  
To end this strife  
Ingest the pills  
Depression kills  
You fade away  
So still you lay

[Pre-chorus 1]  
Fading into darkness  
Into an endless sleep  
But wake to find yourself alive  
You have failed at suicide

[Chorus]  
If at first you don't succeed  
Try, try again (try, try again)  
Failed suicide attempt

Lying there  
In a hospital bed  
Wonder why  
You're not dead  
They ask questions  
But you don't care  
Contemplating  
When next you dare...

[Pre-chorus 2]  
... To fade into the darkness  
Into an endless sleep  
Do not want to be alive  
You have failed at suicide

[Chorus]  
[Solo]

Failed Suicide Attempt [x4]
