Everyday I see the spread  
Of nigger culture in America  
Spreading like a slow disease  
Embracing youth like a slave

Their ghettos littered with garbage and trash  
Spraypainted streetcorners and barred windows  
A generation of pimps, hoods and thieves  
Niggers or wiggers, both breed like rats

Their culture of thievery and crack  
Taking and using and leeching the system

Welfare breeders and streetcorner trash  
The only race to sell it's own as slaves  
Squash every opportunity, expecting endless charity  
I had nothing to do with their ancestor's slavery

Their culture of thievery and crack  
Taking and using and leeching the system

The spread of nigger culture  
Deteriorates from within  
Our cities are polluted with  
Human beings not worthy of life

The early slavetraders were African  
Selling their own race to Europeans  
They kill each other one by one  
A confused race with no direction

Niggers breed relentlessly  
Rats of our society  
[Repeat]
