{Tech N9ne}

Man, I can't even picture myself, not breathin, but its certain.

I love too much I love to many to count em'  
So extras and pets it's easy for me to go on without em  
Cuz everything goes away  
Love it eventually gets stowed away  
Why does it have to be when you're breathin when even  
And then you're heated wonderin why is it cold today

Immortal is fake and impossible but everytime I look up  
I'm seein an obstacle  
Whats gonna happen when time is up an I gots to go  
Beautiful lands are took away from my opticle  
Its not that I'm afraid of death but afraid of the thought  
of my people laid to rest  
They saying there is 6 million ways of death but not  
even one way to fade the stress

Its certain that a person got somebody lookin workin to  
close the curtain  
Or maybe something out of some dream with a devilish  
soul for hurtin

Sometime i be wishin i didn't love  
Cuz when its away i be missin love  
your mother your father your children are livin to die  
from the crib and the ditches dug  
From the process i get nauseous cuz i can't see my  
death and its causes  
Pac he saw it around the corner but me not breathin is a  
pound of balogna  
I keep fightin and im tryin to get right in my mind brian  
Cuz one day im gonna see you even tho i can't picture  
the N9ne dyin  
Im flyin

Far far away from here  
nothin i can do about it  
everything i love go away from here  
wishin i could do without it

i think you gonna go

Far far away from here  
nothin i can do about it  
everything i love go away from here  
wishin i could do without it

{Big Krizz Kaliko}

see i tried to call for your father, but nobody answered  
and i tried to scream out loud, but nobody pampered  
but your leaving tomorrow and im just a youngsta deep  
in the sorrow and  
nobody wants to die  
and i gotta try to get away from the pain im never  
escapin the  
maybe i did to much to you you you by forsakin ya

and now i see a reflection of you off my son  
Cuz he the same complexion and you color up the sun  
and now im done baby makin hatin it to even see my  
baby sleep  
cuz he gotta die one day your buried dead and deep  
and im stay too far away from him  
spent too many days from him  
tears steadily fallin im creatin em'  
and its gettin colder your gettin older year by year  
never know when you gotta go far away from here  
listen here

Far far away from here  
nothin i can do about it  
everything i love go away from here  
wishin i could do without it

i think you gonna go

Far far away from here  
nothin i can do about it  
everything i love go away from here  
wishin i could do without it

{guitar solo}

far far away from here  
everything i love go away from here
