For real emcee's only nigga'  
Everybody on this mothafuckin flow  
This real shit right here  
I'm fast like a rust bus  
On her ass we bust nuts  
Then we smash past your city  
Never last, the big bucks  
I'mma gas this pair up  
They try to talk tall  
But their money is straight dwarfs  
And you won't think it's funny, when we  
Pull up in the grey Porsche  
We treat 'em like stray whores  
We leave and they face sore  
Got the gun in the safe, shoot  
From the waist and the case closed  
Keep on testin' me especially when my ass  
Be up on it.? killing off all opponents  
Never slipping, never tripping off money  
Matter-less moments. Either you take it  
Or you leave it, if you leave it you don't want it  
I'm a strange individual  
Leaving you suckers to drown  
The flows continuous, when you get to a?  
I'm trying to get the digits now  
In a few minutes I'm down to the ground  
They all get with it when they hear the sound  
Whoop! So jittery they think I'm back on it  
So shivery they be like "doggone it"  
So quivery they freeze at that moment  
No liberty for lil bitty pretenders that want it  
Give it up cause I never let you down(x4)  
This here will put the desire in 'em  
Light em up and put a fire in 'em  
Don't nobody wanna openly worship the Devil  
But know that I'm writing with him  
Look at the way that I ride the rhythm  
I put the virus inside the venom  
I don't wanna call 'em pussy but  
I know what they eating, I see the vagina in 'em  
I admit I'm off of my rocker with underlings

(You've been Warned) Call Ces (creamed corn) We  
running things.  
You fly? Fucker be gone  
It's not flapping a hundred wings  
I'll snatch the mermaid from out bloody water  
And gut her clean. When I say I got it  
Together, they say I'm insane - funny!  
The city is no Utopia, notice it ain't sunny  
Like Philly, really get silly, they spaz and they brains  
runny  
Cause everybody keeps asking what's up  
With the strange money  
Tell 'em it's nothing to it  
And choreograph the murder  
Tell Fire to play the track and  
Ask Ubi to bag the burger, we eating  
Look at 'em sleeping, now doobie  
Sucker you supper, I tell 'em "welcome  
To Kansas City - DUCK MOTHERFUCKER!"  
Whoop! So jittery they think I'm back on it  
So shivery they be like "doggone it"  
So quivery they freeze at that moment  
No liberty for lil bitty pretenders that want it  
Give it up cause I never let you down(x4)  
Stranger things have happened  
Tech told 'em and now the channel in tune  
Picked from the street and hit the beat  
Now the planet in doom my cannon boom  
If you can believe they put a man on the moon  
Mission complete my landings aloe and lanolin smooth  
Listen to me, oh there's so many other fish in the sea  
From clown to shark so which fish are you fixin' to be?  
Drown in the dark or bathe in the light in the blistering  
heat of 1, 000 suns son  
Cause it's all 7's and 6's to me  
? so promiscuous with that gift that he been blessed  
with  
Ces? that he spit? up in penitentiary  
Ces essentially quintessentially crescendoing I settle  
beef  
Killa' city could never Gepetto me and you better  
believe that I'm changing in red and green? and never  
ahead of me  
Made up a bed way up in the mezzanine, in a  
settlement over the evergreen and my medicine it is  
acetylene huffing this oxygen  
When I set it free putting my enemies down on?  
And we ne'r gon let ya live it down again I'm gonna get  
ya,  
Nobody wanted Aaron they wanted Ke\$ha  
Cuz in America everybody is messed up I came to raise

the Midwest up  
And do things with strange and big Tecca  
This'll be the first time the Ces heard, pressure, give  
me that yes Sir!  
Whoop! So jittery they think I'm back on it  
So shivery they be like "doggone it"  
So quivery they freeze at that moment  
No liberty for lil bitty pretenders that want it  
Give it up cause I never let you down(x4)  
You see me get money  
Honeys everything I want I really feel it  
When a dude see cleavage funny  
Dummy if you never heard of me tecca ninas a beauty  
Peep it  
A lot of groupies need it  
And you a chump if you don't like it  
And givin it backwards say pu ti evig  
Got a pootie I leave it so juicy when I beat it  
Feed it mooley and I eat it like sushi  
Making 'em crazy crazy  
Never much to sway these ladies  
If you talk about me to a bitch and she don't suck a dick  
she gonna say she pay me  
Tech is second to none  
Inadequate bums you come  
But you niggas under crumbs  
And you trippin cuz you know deep inside your fluffed  
ex fucked Tech  
Then wanted permission to  
Suck Ces  
Better give it I'm check it I'm bout' to rip it  
If Tech impeccable never no better flow  
When I flip it cut everybody so nigga what evolution is  
big enough  
To get you hickin' up when you're bitching be licking  
digging nuts  
Death is gonna be the only way  
You're cold so sorry I had to give away your soul  
Tecca N9na never ever give it up  
For the crown better try him later ho  
Give it up cuz I never let you down (x3)
