[Verse 1]Jay Rock:]You woke up this morning  
Not knowing blood will be on your garmits,  
Hour glasses and informants  
Look that's crawling down your harness,  
See them demons and them omens staring at you  
Mind control they want your soul  
And then your rolling with them just know where you  
going,(hellbound)  
Twelve rounds came out that 4,  
5, look up to see 25 that's alot,(let's rewind)  
When you pulled up on them 6's bust a pistol busting  
bitches nigga's looking suspicious load em' up while  
you,(switching switching)  
Hungry enough to come and get you,  
Hope the gun is coming with you,  
Gonna have to shoot it out or shoot infront(won't pitch  
em')  
Time is now you wasn't focused you seemed up like  
you had posted,  
No tags it was stolen and then it was murder motives,  
Blink of a eye you looking right at yo demise as they  
hopping out they gonna ride  
It's a homicide on yo life,  
The coldest thing you didn't see and now you laying  
there bleeding  
Hopeness they keep out your weakness and now you  
hope to see light,

[Chorus: Krizz Kaliko:]See out of my body's where they  
want me, they think they can catch me slipping they  
want me, so I sleep with one eye open,  
cause you never know when you wake up and you're  
gone,

[Verse 2]Jay Rock:]Now the doctors they operating  
pumping  
your heart infront of yo mamma yo dogs  
If you don't make it you gone,  
On the way to the trauma center  
They taking to long swerving in and out of traffic  
yo mamma tell you,(hold on)

Your bodies filled up with holes  
You feel your body getting colder smelling that death  
in the air the reaper waiting for your soul,  
While your fighting for your struggling to get some  
air yeah, when that line flat then it's a tag on yo toe,  
As your soul start to travel out your flesh you see  
yourself lying on that gurney all bloody buddy it's a  
mess,  
Wish the best upon your flesh  
But your flesh might be dissapointed,  
Pray to god that you anointed while awaiting your op  
union,  
While he pointing in that waiting room

Going through the motions all the screaming and  
comotion  
As they split yo body open,  
for the surgery and accertainly as seems that it's  
over better pray that you hold over,  
Call your bloods how you was potent,  
I said maybe cause your safety is for certain out your  
hands,  
Not your momma not your daddy not your girl not your  
mans,  
None can save you hope they play you in a memory  
when you fly,  
You made but your ligaments ain't alive  
Wish you had died

[Chorus]

[Verse 3: Tech N9ne]Threatining messages punk got
