[Intro: Tech N9ne]

This is so, so crazy...
This long journey...
Look at all the love you gave me
You gave me the strength...
To keep on moving forward
Pushing me past the stars...
Now the light I'm running toward...

[Verse 1: Tech N9ne]

At the bottom of the barrel, I was like the rotten apple
And I never graduated, no gown, no cap and a tassel
But I stowed my education, now I got my teachers
baffled
Wonder why I feel the terror of number one
independent
God picked my name in the raffle
I was dealt a bad hand, wasn't gonna amount to
nothing
Thank god that I had fans, keyboards, mics an
percussion
Cause with that yo I elevated, now I'm just celebrated
Whenever tecca nina hit the public
Taking so many pictures, signing my autograph
Leaving messages on your voice mails and I love it
With all this new success I can't believe this love level
Specially when they thought that I was devil
A painted up psycho brotha who loves metal
The response is overwhelming, for the love, can't thank
you enough
Dedicated to all the people who got me out of hell
Ya'll saved my life and stuff

[Hook: Jay Da 3rd (Tech N9ne)]

I opened up my heart, showed you what I had inside
An ocean full of truth, too deep for the lies
Ya made it to the pain, had to swim through the pride
There's nothing else I need to survive
Overwhelming! (So, so, so)
(Yeah, your love is so, so, so!)
So overwhelming! (So, so, so)

(Yeah, ay, it kept me alive yeah!)
Overwhelming! (So, so, so)
(Yeah, your love is so, it's so, so!)
So overwhelming! (So, so, so)
(Yeah, it kept me alive yeah, yeah, come on!)

[Verse 2: Tech N9ne]

Back in the days I went through visions, in my head,
dreams that you'd listen
But my wonderful fans they came, and made it all
come to fruition
Sometimes with the females I'll straight show
my gratitude through kissin'
On the cheek, for the youngsters, foreheads,
or a legal pound for the fella's crew [?]
Way back then I was bitter, was unused my music is
litter,
so mad and I'm mad I got jitters
Didn't consider that in a second I would be bigger,
the label found that I was a hard hitter
I'd give'r shit was delivered hella hard from a spitter,
gritter
Recognizing all the humongous love I'd get on
facebook
and positive messages on twitter
This is how I tell you thank you, to all of my fans I thank
you
And you can tell all those suckaz that hate on the Nina
they just upset that they ain't you
Cause they favorite artist is lame, and neglects his
fans, he does do
But your favorite artist goes out of his way to show you
that he loves you

[Hook: Jay Da 3rd (Tech N9ne)]

I opened up my heart, showed you what I had inside
An ocean full of truth, too deep for the lies
Ya made it to the pain, had to swim through the pride
There's nothing else I need to survive
Overwhelming! (So, so, so)
(Yeah, your love is so, so, so!)
So overwhelming! (So, so, so)
(Yeah, ay, it kept me alive yeah!)
Overwhelming! (So, so, so)
(Yeah, your love is so, it's so, so!)
So overwhelming! (So, so, so)
(Yeah, it kept me alive yeah, yeah, come on!)

[Verse 3: Tech N9ne]

So here's to all of my fans, your making my dreams
come true

You helped me create this land, by believing that this
one knew
That one is N9ne, you brung his time to everyone and
rhymed
All though some is blind you brung his lines to the sun
and shined
Technician hunts, keeping my every condition pumped
Giving you what your suspicion wants, waking up these
hissing punks
To the early strange fans, thank you for feeling my
pain man
But for the newbies I'm so so glad that you made it,
welcome to strangeland
The tattoos, the tears, the gratitude, the years
My lifes my debt through sound, thank you cause Tech
you found
Just know that I'm thankful and I will never ever let you
down

[Hook: Jay Da 3rd (Tech N9ne)]

I opened up my heart, showed you what I had inside
An ocean full of truth, too deep for the lies
Ya made it to the pain, had to swim through the pride
There's nothing else I need to survive
Overwhelming! (So, so, so)
(Yeah, your love is so, so, so!)
So overwhelming! (So, so, so)
(Yeah, ay, it kept me alive yeah!)
Overwhelming! (So, so, so)
(Yeah, your love is so, it's so, so!)
So overwhelming! (So, so, so)
(Yeah, it kept me alive yeah, yeah, come on!)

[Outro: Tech N9ne]

Wow, thank you to all who love me
I mean it more than you know
I love you for feeling my music
And coming to every show
And I will forever be there
Through rain, sleet or snow
You're right there with the stars
Cause [?] now there's only one other place that we can
go
