Imma put my best foot forward on This night, put a
couple of hands of grease in my hair an in my
eyebrows and now I'm tight.
I wanna be with a woman and just This one, but the
taste of blood is still on my tongue.
If I could just eat food instead of her D boobs, I want
this one alive when the morning comes----

[Chorus]

I just want to be a normal boy,
Just wanna be a normal boy.
If I only could just keep the women off my tongue, then
she can be my number one lady.
I just want to be a normal boy,
Just wanna be a normal boy.
If I only could just keep the women off my tongue, Then
she can be my number one lady.

Oh please, oh please, oh please
Just give me just one more clit,
one more tit,
one more bitch.
What does I gotta do to get me fixed?
Cause I gotta have this one in my mix.
She's so beautiful I would slit
both my wrists
if she split
when she finds out that I'm so sick.
I eat women.
I really eat women.
They're really delicious.
I gotta be knowin so I can make her the Mrs.
I gotta date with her so I can tell her my wishes,
Even though I'm a beast but she don't know that I'm
vicious.
So I meet her at her place and she's so sweet.
Made me dinner but really want her meat
From her cheek,
Maybe her feet.
I'm tring to be discrete,
but I really want to eat,
her out completely.

Teach me,
to keep it away from her,
the eating and tape on her,
the chewing away fingers.
Once she feeds me I'm lovin' me tastin' her.
Can I just have a normal night?
I just want to be the man to live normal life,
normal wife,
keep her in the formal white,
but the psycho creature with the horn will bite.
It's almost sun up now.
I'm getting done up, wow.
Fellatio.
But I found out she was insatiable.
She wanted me to do her too,
don't want to see me through her view,
Cause I got on my knees,
started doin my deed,
But then I accidentally chew her out.

[Chorus]

I just want to be a normal boy,
Just wanna be a normal boy.
If I only could just keep the women off my tongue, then
she can be my number one lady.
I just want to be a normal boy,
Just wanna be a normal boy.
If I only could just keep the women off my tongue, Then
she can be my number one lady.
