Turn

The change of feelings or attitude  
The change of intention  
To redirect a point of aim  
The reverse of one's feelings  
To upset or unsettle  
We were the dynamic duo we were unstoppable  
musicly i was incredible and made you a veteran was  
like the titanic you know you was unmockable to TU and  
conseverable punks and you were better than me it  
musta went to your head cause ever since you made it  
your ego sits on the red sometimes i wanna put slits in  
your head when you didn't come to Brian's funeral I  
shoulda sent you to bed you don't even come round no  
mo' you don't invite me to your shows you treat me like  
we ain't down no mo' I bet you ain't seen your son in  
months I bet your wife is miserable and you ain't the  
once she wants, took you in and gave you shelter made  
it to where they feltcha now I just sit at home and watch  
you bubble like alcaselscer, SICK, A while ago I wasn't  
conserned you took my heart and homie win will you  
learn that you burn when you

word that she uttered uttered brother you stabbed me  
in the back you snake better yet you worm took my lady  
homie when will you learn thatcha burn when you

HOOK

Turn I can feel it in the air

didn't have a pot to piss in, listen, gave you a little  
money put you back on you feet gave you your first  
record put it off in the streets now all I hear is you killin

movies and knocked you out your seat till your next  
rhyme there will be a next time when you turn your back  
on somebody who helped you get signed black hearted  
devil in you yo that's just crime all these verses are  
directed towards you TECH N9NE
