Tech N9ne
Ya You have now entered your girls phsyce
you no longer have to wonder where she might be
you seem to be mis-lead bout her line of work
dont get your fellings hurt cause I done seen her
(twerk)
she told you that she work
for sprint cleverly
but something so thick well just an occupation will
never be
and what she makin it sounds good like laraby
but she says she specialize in message therapy
you a dummy
your chick is gettin money
from lettin these ballaholics lay deep off in her tummy
just like fat tone say
I know what she did
suck dick all day and went kiss on your kids
now shes kissin on you
instead spittin she true
yet your lovin that she ballin but she twistin the crew
pissin on who white dudes be friskin your boo
call girl by the night is what she fixin to do
homie re-evaluate it cause your woman might be
bad for brothas like you good for niggas like me
