Yeah, you can
Yeah, you can
Will you go with me, don't leave me lonely?
Will you go with me, don't leave me lonely?

Would you go with me, baby
If I tell you I can do you good tonight
Say, yeah, you can?
Can we get lost mama if I promise
I can break you off tonight
Say, yeah, you can?

Would you go with me, baby
If I tell you that I'll do you good tonight
Say, yeah, you can?
Can we get lost mama if I promise
I can break you off tonight
Say, yeah, you can?

Can I holla atcha yo holla holla?
Can I holla holla you liking the way
I throw these dollas at chu?
They say your kitty cat
Is one hell of a dog catcher

Can I take to my kennel and make it all better?
Can I get you in the parking lot, I mean?
Can I get you out the parking lot
Then we can bend the corner and find a darker spot,
baby?

Can I let the seat back, so I can bark a lot?
Yeah, you can
I see why you at the silver slipper
'Cause that ass fat, baby, pass that
Let me smash that, want me jizzum
But I holds 'em bagnum courtesy of my player partner

Trojan magnum, think you pimpin' your broads
You'll be hold like tagnum first night like I'm mad
I don't know these hoes from Adam
Deep as I'm deep down diamond Joes, I jabbed 'em

Can I come back again and repeat this with you
madam?

Would you go with me, baby
If I tell you, I can do you good tonight
Say, yeah, you can?
Can we get lost mama if I promise
I can break you off tonight
Say, yeah, you can?

Would you go with me, baby
If I tell you, I can do you good tonight
Say, yeah, you can?
Can we get lost mama if I promise
I will break you off tonight
Say, yeah, you can?

Can I tell you a secret before you get to answer?
Shadow done already peeped it
It's the freak with reason, the ladies wet in they bed
and shell
Probably get orgasmic just from giving me head

Can I bring a couple of my closest friends, get a telly
Play some music proolly, throw you some mens?
Oh, you wanna keep me all to myself
You wanna come a couple times well

Mami, can I offer some help?
Can I see the way your body look from the back
She shook form the fact that me tongue motions did it
like that
Had her walking like she had a camel hump on her
back
And since they say we only mammals
I'm the king of the cat and as long as your ass is fat

Can I give it a smack record, the whole thing
And play it on track, if you telling me you good with
that?
I'ma handle some things but is it cool
If I come right back

Would you go with me, baby
If I tell you that I'll do you good tonight
Say, yeah, you can?
Can we get lost, mama
If I promise I can break you off tonight
Say, yeah, you can?

Would you go with me, baby

If I tell you that I'll do you good tonight
Say, yeah, you can?
Can we get lost, mama
If I promise I can break you off tonight
Say, yeah, you can

I know you heard of me, baby
I'm one they talk about
They call me calli, baby
Say it while we walking out and next
Let's hit the exit, go get naked
Doing thing you know will get you pregnant

But can't it be just a fantasy plan
To have you panicking this shit pad in this ring
Bring out the man in me and I'll be gentle at first
And then frantically I'm a damaged

De back at you attacking where your pant be
And I just want to love you now
Can you tell me how I get you home tonight, baby
Let me turn you round, lick you up and down

Let me see every part of light
And maybe it's the drink making you look better
Or maybe it's my voice making you get wetter
If you like me like I like you, girl
Don't hesitate, don't make me wait, tell me

Would you go with me, baby
If I tell you, I can do you good tonight
Say, yeah, you can?
Can we get lost, mama
If I promise, I can break you off tonight
Say, yeah, you can?

Would you go with me, baby
If I tell you, I can do you good tonight
Say, yeah, you can?
Can we get lost, mama
If I promise, I can break you off tonight
Say, yeah, you can?
