"I Love Music"

Visit "[I Love Music](#)" on MotoLyrics.com

Music is the reason why I am breathing
Sipping and... while I am eating... bad season
Some beef and bitch,, an obstacle
Made it possible for the flow gotta be profitable
Your text audible is an arguable product...
God was so good for giving me music
Lift and getting me through when I was... and lose it
Dudes hit big school and raping the... jumped into it
Four clips for who stick the homie...
Got me out of the ghetto
Got me mucho dinnero
And... Mexico... sombrero
... come and get this ghetto music... save my life...
I write my generation... my music always get to lay my
pipe...
Blessed me with an original flow so hey by by I feel I
live I listen and
Learn
I like

I love music
I love music
I love music
I love music
I love music
I love music
I love music
I love music
Automatic when I do this manually
Daily... be the coolest acoustic... not to lose it
... I am just a... with incredible rhythm... words arranger
Will let you know he has incredible in him
I don't mean... I am laughing cause it is easier...
We know he gonna take... I am talking truth
And I got... show you is a walking truth
A thousand miles and I can show you what I can walk
you through
Music is not a hobby is an organ a body that I created
and provided back in
92
... so don't you dear say music skipped my generation...

I love music
I love music
I love music
I love music
I love music
I love music

Music is my life
The reason why I write
Like,, like a parasite
... you fall apart in a body part...
Nobody try my limits cause they are afraid of heights
The ambition... gravity let you dye... in your ass every
time
Time and time again I treat my pen like a pen... I've
been
Serving a life... 9 times out of 10
That's an analogy of the way I do causality
And I do this casually for the first in
I'll be on the wall of fame...

If it was a full heart music
You wouldn't be standing here
If it was a full heart music
You wouldn't have walked again

I love music
I love music
I love music
I love music
I love music
