No one is getting near  
And every time I say,  
They say that Iâ€™m not a mirror,  
But you must play this game.

Within your deepest thoughts  
I sense affection for real.  
No matter how hard I try,  
You donâ€™t know how I feel.

Lead me to sun before itâ€™s too late,  
Reach out, donâ€™t let me suffocate,  
Come on, make my melodies time passes by.

Tell me now we used truth you say  
Little witch come over rested a play  
Ray guy for your love for me now is a pay.

On no! My feelings are sense  
And circle me with heavenly feelings,  
The three midles calling me.  
No time for evolution,  
My heart is cold as ice.  
Surrender on your feelings  
I will give you paradise.

Heaven have my face by and heart,  
No follow way a blood cause it human being.  
Heaven, the sky turns blue again,  
We lighting have predestined lives.
